February 6, 1992

Mr. Lowell P. Braxton  
Associate Director, Mining  
State of Utah Department of Natural Resources  
Division of Oil, Gas, and Mining  
355 West North Temple  
3 Triad Center, Suite 350  
Salt Lake City, UT 84180-1203

Dear Mr. Braxton:

Subject: Operation Plan R647-004-106.2 Acid Base Potential -  
Sunrise Dump

Due to an oversight, the work on the results of the acid forming potential for material being mined from the Sacramento Pit and placed on the Sunrise Dump, was overlooked. The acid base analysis of the material has been completed and is currently being reviewed for acid forming potential.

The results of the acid forming potential will be submitted to the division no later than February 28, 1992.

I apologize for any inconvenience this may cause.

As always, your cooperation is greatly appreciated.

Respectfully,

*David P. Beatty*

David P. Beatty  
Environmental/Occupational Health Coordinator
